

ENGAGEMENT STEPS

There are a variety of ways to get involved with Project Baseline. Here are five simple engagement steps anyone can use as focus to begin their journey of conservation and help protect, preserve, and restore our precious underwater ecosystems.

CHOOSE

Choose to get involved then choose where you want to contribute.

CONTRIBUTE

Go diving, record what you see, share that with the world through the Project Baseline Database
<http://db.projectbaseline.org>

ENGAGE

Engage with your community. Learn about the threats to your environment. Tailor your efforts accordingly. Build a team of divers to define baselines for your environment.

COLLABORATE

Identify the research, management, and/or conservation efforts underway in your environment. Help them achieve their objectives.

SPEAK OUT

Speak up for your environment. Engage with your community and your legislators to advocate for the protection of your environment.
